About Course

Advance diploma in Project management

Advanced Diploma in Project Management programme is meticulously designed by Projcon Group and validated by the ETA, a UK Government-approved awarding body for ambitious project managers willing to succeed in this fast-paced industry. This rigorous program provides comprehensive training in advanced project management practices, equipping you with the essential knowledge and skills to navigate the complexities and incentives of project leadership.

The curriculum encompasses key areas such as Principles of Project Management Leadership, Conflict Management, Risk Management, Total Quality Management, Project Control and advanced IT for Project Management, and Research Methods for Project Managers. The program ensures you gain a thorough understanding of the entire project lifecycle – from initiation and planning to execution, monitoring, control, and closure.

Throughout the course, you will master critical skills in estimating, scheduling, budgeting, risk management strategy, resource allocation, stakeholder engagement, and effective quality management. You will learn to meticulously plan, execute, control and monitor each phase of a project to achieve optimal outcomes and benefits.

Upon successful completion, you will earn a UK government-validated certificate with 120 credits, a valuable credential recognized worldwide and a testament to your project management expertise. This diploma not only unlocks a fulfilling career path but also equips you to become a strategic and proficient project leader.

FAQ

1. How is the course delivered?

Guided learning hours for the course are 200. The course is flexible, you can work according to your own schedule. The course is assignment-based. Each unit has two assignments, which need to be submitted and will be marked by the course tutor. The feedback for the submitted assignments will be provided by tutor within 15 working days of the assignment being submitted. On the successful completion of the unit, you will move on to the next unit and this way you will complete your course. There will be no formal exam for this course apart from the assignment submission. The certificate will be provided at the end of the course upon the successful submission of all your assignments.

2. How will you study?

When you enroll on the course you will be provided a Moodle link for studies where all the study material and session recording will be available.

3. What is so special about this course?

This is a unique course validated by UK government body (ETA) which is approved by UK government and the certificate will be accepted worldwide.

4. What support do students get?

All the learning material will be provided and uploaded to Moodle online learning platform. Additionally, 1-1 support sessions will be provided by the experts.

5. Tutor Support

Tutor support will be provided for the assignment submission.

6. Who is the course for?

Anyone who wants to get a better understanding in Project Management.

7. How do I watch the videos?

Once you enroll on this course, you will be provided access to Moodle Learning Platform where the session recording and study material will be available.

FAQ

8. Is the course self- paced?

You can access each lesson when you are ready. To move on to the next unit lesson, you must finish learning with previous unit. It is advisable to finish this course within 9-12 months.

9. Is the course accredited?

Yes, this course has been carefully designed by Projcon Group and validated by ETA (ETA is UK Government approved awarding body). After completing this qualification, learners will achieve 120 credits and a UK government-validated certificate. This certificate will be accepted worldwide.

The course can be taken from anywhere around the world. As long as you are able to study the course that is written in and delivered via English medium, it does not matter where you live. Further, the course does not include any activities requiring all the students to log in and interact in real time so time zone differences do not matter.

10. How much does it cost?

The overall course fee for this course is \$995.

11. Can I pay my fees in instalments?

No, monthly instalments are not accepted.

12. Payment Methods

You can pay your fee by selecting the following payment methods:

- Credit/ Debit Cards
- Paypal

13. What technical skills do online learners need?

Online learning platforms are typically designed to be as user-friendly. However, students still need basic computer skills to access and navigate these programs. These skills include using a keyboard and a mouse; running computer programs; using the Internet; sending and receiving email; using word processing programs; and using forums and other collaborative tools.
